About View

View is the leader in smart building technologies that transform buildings to improve human health and experience, reduce energy consumption and carbon emissions, and generate additional revenue for building owners. View Smart Windows use artificial intelligence to automatically adjust in response to outdoor conditions, eliminating the need for blinds and increasing access to natural light. Every View installation includes a cloud-connected smart building platform that can easily be extended to reimagine the occupant experience. View's products are installed in offices, apartments, airports, hotels, and educational facilities. For more information, please visit: www.view.com.
